

ELECTION

Applicant elects Examiner designated group Transmission 1: Figs. 1-3 with Examiner designated Actuator 1: Hand.

Traverse

Applicant traverses Examiner's designated distinction between Actuator 1 and Actuator 2. Applicant takes note the absence of any classes and subclasses indicating that a hand actuated transmission of the present invention would be classed differently than a motor actuated transmission.

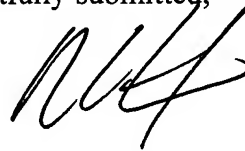

Claims

Applicant acknowledges Examiner's designation of claims 1-4 as generic. Applicant further submits claim 5 as reading the identified species. Claims 6-17 are withdrawn.

Conclusion

Prompt and favorable consideration of this Amendment is respectfully requested.

Respectfully submitted,

By: Robert C. Haldiman, Reg. No. 45,437
